

## PRESS RELEASE

### ***Paradigm Works to Manage DVClub North America***

**Austin, Texas**, September 13, 2014 — Paradigm Works, Inc., a world class provider of chip design verification services and IP, will revitalize the popular engineering networking event in North America. DVClub, initially established in Austin, TX by Eric Hennenhoefer, will resume its activities in Austin, San Jose, and Boston, and will consider additional venues in 2015. DVClub is an engineering educational and networking event, regularly featuring presentations by industry experts, luminaries, and academics, on state of the art practices in functional verification. Visit [www.dvclub.org](http://www.dvclub.org) or contact Paradigm Works directly for further information.
