

SOFTWARE LICENSE AGREEMENT – ONE COMPANY, SINGLE-PROJECT-USE

This Software License Agreement (the "Agreement") is a legal agreement between the company or other business entity that is licensed, under these terms, to use the software ("Licensee"), and Paradigm Works, Inc. ("Licensor" or "we" or "us"). This Agreement relates to Licensor's ParadigmWorks® ScoreBoard™, which includes editable source code (the "Source Code") and compiled or encrypted software code and applicable documentation (collectively, the "Software"). Licensor and Licensee are the "Parties" and each is a "Party." The license granted under this Agreement is royalty-free and terminable, as stated herein.

Please read this Agreement carefully.

The license granted in this Agreement is limited to a single Licensee and to the single named Project (as defined below) that you identified when you downloaded the Software.

If you wish to use the Software for additional Projects, you will need to download and register an additional copy of the Software for each named Project. This process is intended to allow you to use the Software for more Projects and to allow us to track and verify use of the Software. Please see our website for more details.

Licensor is willing to license the Software to Licensee only upon the condition that Licensee accepts all of the terms contained in this Agreement. By downloading, installing or using the Software, Licensee agrees to be bound by the terms of this Agreement. If Licensee does not agree to the terms of this Agreement, Licensee is not permitted to download or use the Software and must promptly and permanently erase all copies of the Software that Licensee may have downloaded, installed, or copied.

Each individual agreeing to accept these terms on behalf of Licensee represents and warrants that he or she has full authority to bind Licensee to these terms.

1. Certain Definitions. Subject to the terms of this Agreement, the following definitions will apply:
 - a. "use" means compiling and loading the Software into RAM for operation, as well as installation on a hard disk, solid state drive, or other computer storage device and running the Software, all only within Licensee's organization.
 - b. "Project" means a particular named project, within Licensee's organization, to create, test or perform verification of code to be used to make a semiconductor device or set of devices.
2. Grant of License. Subject to Licensee's compliance at all times with the terms of this Agreement, Licensor grants Licensee a license to the Software as follows:
 - a. Licensor grants to Licensee the right to use the Software for use solely on the single Project for which Licensee downloads the Software. When Licensee downloaded this copy of the Software, Licensee was required to identify a Project by name. Installation and use under this Agreement is limited to that named Project.

- b. For the purposes of this Agreement, Licensee's Project naming practices will be in accordance with Licensee's standard reasonable practices and procedures for naming single Projects. If providing the true Project name would disclose Licensee's confidential information, Licensee may submit an alternative unique different Project name to Licensor, to be used to identify only the single Project under this Agreement.
- c. Licensee may also embed the Software in the code that constitutes the unique logical design(s) of the semiconductor device(s) that is (or is intended to be) the result of the Project ("Project Design Code").
- d. For clarity, use of the Software for any different Project or in different Project Design Code is not permitted under this Agreement. If Licensee wishes to use the Software for additional Projects, Licensee will need to download and register additional copies of the Software, one for each additional named Project. Each downloaded copy and each Project will be under a separate Software License Agreement. Please see Licensor's website for more details.
- e. Third parties, including contractors, other companies, or other service providers, are *not* permitted to access or use the Software, directly or indirectly, without Licensor's express prior written consent. All license rights granted to Licensee under this Agreement are non-exclusive, non-transferable, and non-sublicensable. This Agreement governs any update or new version of the Software that Licensor may supply. Licensee agrees not to use or exploit the Software except as expressly permitted herein.

3. Permitted Copies

- a. Under this Agreement, Licensee may copy the software internally only and solely for use in the single Project for which the Software was obtained and solely for use as permitted herein.
- b. Licensee may make one backup copy of the Software solely for archival use.
- c. Licensee agrees to reproduce all copyright notices and other legends of ownership on each copy of the Software. Marking on a permitted physical copy shall, at a minimum, include a conspicuous typed or written statement that "THE COPYRIGHT TO THIS SOFTWARE IS OWNED BY PARADIGM WORKS, INC. UNLICENSED USE OR DISCLOSURE IS PROHIBITED."

4. Confidentiality

- a. Licensee agrees that the Software and all documentation and other information provided by Licensor with regard to the Software, its contents, or its use comprise the "Confidential Information" of Licensor. Licensee agrees not to access, permit access, disclose, use or permit use of Licensor's Confidential Information other than as expressly permitted in this Agreement.
- b. Licensee will protect the confidentiality and security of the Software and other Confidential Information of Licensor with at least the same protections as it provides its own trade secrets, but in any case will provide reasonable confidentiality and security protections.

5. Ownership. The Parties stipulate that the Software is owned by Licensor and/or its suppliers and is protected by copyright law. The Software is licensed and not sold. Licensee does not have, and will not have, any ownership or proprietary rights in or to the Software. Licensor reserves all rights not expressly granted to Licensee in this Agreement.
6. Permitted and Forbidden Modifications
 - a. Licensee is permitted, solely for licensed internal use in the relevant Project, to modify only those portions of the Software that are provided in unencrypted source code form.
 - b. With regard to any portion of the Software that is provided in encrypted source code form or in binary or object code form, Licensee agrees that it will not decrypt, reverse assemble, reverse compile, otherwise translate, or seek to discover the workings of such portions of the Software.
 - c. With regard to portions of the Software that are provided in unencrypted source code form, if Licensee makes modifications during the term of this Agreement, then Licensee may own, to the extent otherwise provided by law, only the modifications. The Software, except for permitted modifications will, nonetheless, be deemed Licensor's property and will be subject to all of the terms and limitations of this Agreement, including those relating to confidentiality, license termination, intellectual property ownership, and termination. Licensee further agrees that each such modified version is deemed a derivative of the Software under copyright law, and that, as such, will be subject to Licensor's ownership rights under applicable copyright statutes and treaties.
7. Additional Restrictions
 - a. Licensee shall not use or exploit the Software, by any means, to make, or assist in making, any product, algorithm, or software with similar or replacement functionality.
 - b. Licensee will not, and will not permit any third party to, rent, sell or lease the Software or to offer the Software for use in any cloud version or for any remote or service bureau usage. Licensee is not permitted to distribute the Software. Licensee is not permitted, directly or indirectly, to charge or obtain money or other consideration for use of or access to the Software.
8. Disclaimer. LICENSOR DISCLAIMS ALL WARRANTIES, BOTH EXPRESS IMPLIED, INCLUDING BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT WITH RESPECT TO THE SOFTWARE. LICENSOR DISCLAIMS ANY WARRANTY THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED, ERROR-FREE OR MEET LICENSEE'S REQUIREMENTS. AGENTS AND EMPLOYEES OF LICENSOR ARE NOT AUTHORIZED TO MAKE MODIFICATIONS TO THIS WARRANTY OR THIS AGREEMENT OR TO MAKE ADDITIONAL WARRANTIES ON BEHALF OF LICENSOR. LICENSEE AGREES THAT IT HAS NOT RELIED UPON ANY STATEMENT, REPRESENTATION, WARRANTY OR AGREEMENT OF LICENSOR IN ENTERING OR AGREEING TO THIS AGREEMENT.

9. Limitation of Remedies

- a. LICENSOR WILL NOT BE LIABLE FOR LOSS OF DATA, LOSS OF PROFITS, LOST SAVINGS, SPECIAL, INCIDENTAL, CONSEQUENTIAL, INDIRECT OR OTHER SIMILAR DAMAGES UNDER ANY CIRCUMSTANCES, EVEN IF LICENSOR OR ITS AGENT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, OR FOR ANY CLAIM BY ANY THIRD PARTY.
- b. There is no fee or charge to Licensee under this Agreement. Licensee agrees that Licensee's cumulative, aggregate, and entire remedy against Licensor, its affiliates, contractors, suppliers, and agents with regard to this Agreement or any breach, or regarding its subject matter, or related to the Software, or otherwise, will not exceed one hundred dollars (\$100.00), which the Parties stipulate is a commercially reasonable amount. This limitation will apply regardless of the form of action, whether in contract or tort or under a statutory claim, including negligence, strict liability or otherwise.

10. Termination of License

- a. This Agreement and all licenses granted hereunder will persist for so long as the Licensee uses the Software in connection with the single Project. For clarity, this permitted use period will continue, for the purposes of such use only, for so long as the Software remains embedded in the applicable Project Design Code.
- b. In addition, Licensor reserves the right to terminate this Agreement, or any licenses granted herein, upon written notice to Licensee with cause or without cause.
- c. Upon any license termination or termination of this Agreement, notwithstanding any other provision of this Agreement, all license grants end, and Licensee will cease use of the Software and will permanently erase or otherwise destroy all copies of the Software. This obligation extends to and includes any backup or archival copy. Licensee will certify in writing, by its duly authorized officer, its compliance with this provision, within five (5) business days of Licensor's written consent.
- d. Notwithstanding any termination, the following Sections of this Agreement will remain in effect: 4, 5, 6c, 7, 8, 9, 10d, and 11 together with definitions of terms and accrued obligations.

11. General Provisions

- a. *Compliance by Employees and Others.* Licensor agrees to provide such instructions and directions to its directors, officers, employees, and agents so as to ensure their compliance with Licensor's obligations under this Agreement.
- b. *Scope of Provisions.* All provisions, terms, restrictions, and limitations of this Agreement relating to the Software also apply equally to all code and to every portion of the Software and every file or data that is included therein or that comprises the Software.
- c. *Export Compliance.* Licensee shall comply strictly with all United States export regulations (and any similar regulations in foreign countries) and shall obtain all required licenses, approvals and/or other clearances to export, re-export or import, as applicable, applicable for the Software.

- d. *Notice.* All notices, requests, demands and other communications required or permitted hereunder shall be in writing and shall be deemed to have been given if mailed, certified mail, return receipt requested, with postage prepaid, to the addresses or locations listed on the Parties' respective web sites or that its agent or employee has provided to Licensor in writing (including as provided in connection with the download of the Software). In addition, Licensee consents to electronic notice at the email address that its agent or employee has provided to Licensor in writing (including as provided in connection with the download of the Software) or any other valid email address.
- e. *Restriction on Assignment.* Licensee may not assign any of its rights under this Agreement, whether voluntarily or involuntarily, by operation of law or otherwise, without the prior written consent of the Licensor. Licensee may not delegate any obligation or performance under this Agreement. Any purported assignment of rights or delegation of performance by Licensee in violation of this Agreement is void. Licensor may assign its rights under this Agreement.
- f. *Invalidity of Provisions.* If any provision of this Agreement is held to be invalid or unenforceable, the remaining provisions of this Agreement will remain in full force and effect.
- g. *Information Provided by Licensee.* Licensee authorizes Licensor (together with third parties that Licensor authorizes to act on its behalf) to receive, store and use Licensee's and its employees' business contact information, locations, and other reasonable business information in connection with communications regarding Licensor or its business partners' products and services or in furtherance of Licensor's business relationship with Licensee.
- h. *Governing Law.* This Agreement will be construed in accordance with and governed by the laws of the Commonwealth of Massachusetts, and applicable United States federal law, including treaties regarding copyright and other proprietary rights. The United Nations Convention on Contracts for the International Sale of Goods does not apply.
- i. *Jurisdiction and Venue.* Any claims or actions regarding or arising out of this Agreement or its subject matter will be brought exclusively in a state or federal court located in Boston, Massachusetts, USA, and both Parties submit to, and waive all objections to, the exclusive jurisdiction and venue of such courts.
- j. *Certification of Compliance.* Licensee agrees, upon Licensor's reasonable written request, to certify in writing, signed by its duly authorized officer, Licensee's full compliance with this Agreement; or, if Licensee is not in compliance, to list in writing, signed by its duly authorized officer, a listing of acts of non-compliance.
- k. *Injunctive Relief.* The Parties agree that Licensor and its suppliers are entitled, without the necessity of posting bond, to obtain emergency, preliminary and final injunctive relief if Licensee uses or threatens to use the Software in violation of the terms of this Agreement. Such injunctive relief will be in addition to other remedies that may apply.

- l. *Additional Remedies.* In case of any legal action or proceeding to enforce this Agreement or its terms or otherwise regarding the subject matter of this Agreement, if Licensor is the prevailing party in any substantial respect, Licensor will be entitled to recover its reasonable attorneys' fees and other costs incurred in the claim, action, or proceeding, in addition to any other remedies which may apply.
- m. *Entire Agreement.* This Agreement constitutes the entire and final agreement of the Parties and supersedes all other offers or agreements, written or oral, and all other writings regarding this subject matter.
